(54) Title: CANDLE SCENT DELIVERY PELLET

(57) Abstract: A scented pellet comprising a suitable bulk material such as wax and a scented material for introducing scent to the melt pool of a candle. The pellet is so constructed that it melts and mixes into the melt pool of the candle for the purpose of releasing the scented material within the pellet into the melt pool as the bulk material of the pellet melts. The scent is mixed with the candle melt pool giving the candle a scent while the candle burns.
